About The Author

A

Abdullahi Kawu is interested in research in Human-Computer Interaction, Digital Health and ICT4D, hence most of his works are in those domains. He is passionate about people and technology, in particular exploring their engagements with technology. He is currently a Lecturer at Ibrahim Badamasi Babangida University, Lapai, Nigeria and a PhD research fellow with TU Dublin under the Science Foundation Ireland (SFI) Centre for Research Training in Digitally-Enhanced Reality (d-real) program. Earlier on, he obtained an MSc in Advanced Computer Science (Distinction) with interest in Human-Computer Interaction from Newcastle University, UK. He has also worked as a Consultant Staff to international development organisations like Malaria Consortium, World Bank and UNDP where he had the rare opportunity to learn and apply technical, leadership, project management, and Monitoring and Evaluation (M&E) skills in health projects.

Aliya Aktau received her MSc degree in Computer Science from Leiden University, The Netherlands, in 2020. She is now a PhD candidate at Leiden University Medical Center (LUMC) and teaching Data Collection, Wrangling, Analysis and Visualization at Suleyman University, Kazakhstan. Her research interests include FAIR Data Science and FAIR Data Management. She works as a data curator for medical health research.
Email address: aleka.aktau@gmail.com; a.aktau@lumc.nl
ORCID: 0000-0003-4942-2725

Anthony Wachira graduated from the University of Nairobi with a BSc. Honors in Mathematics and Computer Science in 1988 and an MBA in Management Information Systems and Strategic Management for the same University in 2001. His MBA project was titled Ergonomic Factors Considered in Information Systems Implemented in Kenya: A Case of Firms in Nairobi. He is currently enrolled for PhD in Healthcare Management at the Institute of Healthcare Management of the Strathmore Business School — Strathmore University. He has been deeply involved in research on the provision of ICT solutions across many sectors and at various levels, the last two being ICT Services Director, Strathmore University and GM-ICT, Kenya Airports Authority. He chaired the inter-agency committee on border security in 2007, where one of the principal outcomes was the proposed single identification source for civil registration and vital statistics for all persons within the territory of Kenya using biometric data capture with the objective of creating Big Data.

ORCID: 0000-0002-0344-4403

António Cartaxo (1987, Lisbon) visited in 2019 a research project on HIV prevention and care in Coastal Kenya, after which he became interested in access to healthcare. Since January 2020 he has been a PhD aspirant at Leiden University within the Globalisation Accessibility Innovation and Care network. His research focuses on participation in digital health innovation and health orientations in informal settlements in Nairobi, Kenya.
Email address: am.cartaxo@gmail.com
ORCID: 0000-0002-1276-1179

Araya Abrha Medhanyie holds a PhD and is associate professor of public health at the School of Public Health at Mekelle University, Ethiopia. He has seventeen years of work experience in teaching, research, and community service. His research interests and professional career focus mainly in Global Health and Development. He is interested and has been building his research career in multidisciplinary and implementation research that integrates health systems, maternal and newborn health, health systems leadership and governance, health policy, digital Health and social transformation. Methodologically, he is interested and keen in specializing his capacity in implementation research, diffusion of innovations and scale–up of proven health interventions. He is passionate about serving humanity through research, education and leadership. He enjoys reading and writing about social change, leadership and development. He is Country Coordinator of VODAN-Africa.

Ezekiel Ogundepo In the fields of mathematics and statistics, Ezekiel is a knowledgeable and creative professional. He holds a master's degree from the African Institute for Mathematical Sciences (AIMS), Rwanda, where he received a scholarship from MasterCard, and a first-class degree in statistics from the University of Ilorin, Nigeria. He has experience with the Rwanda Revenue Authority (RRA) and is a leading expert in advanced statistical modelling. He worked on the RRA team that developed the interactive taxpayer data portal and automated key statistical reports needed by internal and external users. Ezekiel is currently employed by 54gene (a biotechnology company) as a Data Specialist and has made contributions to the ralger web scraping R package and the Big Book of R. He is a certified instructor for Rstudio Tidyverse, a data steward at Virus Outbreak Data Network (VODAN) Africa and Asia, and an active member of the Africa R programming community.
